Cutting Out "We"

For the duration of the war and, perhaps, until somebody has to write my obituary, I am going to cut out this "we" stuff in the editorial columns. There never was any sense of being inseparable "we" when "I" was the person doing the editorializing. I have figured that, in the course of a year, the substitution of "I" for "we" and the substitution of "my" for "our" in this newspaper would not enough space which at one dollar a column inch will amount to about \$10.00.

In the future, I will not do anything, I am not going to do anything, I will not do anything, I am not going to do anything.

Grenada Is Lucky

That Grenada has never experienced two fires at the same time, is a fact which, perhaps, our city of 10,000 people is entitled to consider in the preparation to have the fire stations in Grenada, the second one being in the southern part of the city.

In spite of the fact that the fire department is kept a lane for the fire trucks on Sundays and other busy days, the fire department is kept a lane for the fire trucks on Sundays and other busy days.

When our citizens have not realized the probability of having two fires at the same time, you may be sure that the fire department has realized this, and we make it a rule to have the people who pay fire insurance premiums in Grenada pay enough more than they will pay for the fire insurance to have adequate fire protection.

Suppose the Grenada Hospital, filled with sick people, and the fire department, filled with fire trucks, were to have a fire in the same place. A fire could start before the fire department could get there.

The Grenada County Weekly is not in the business of manufacturing fire-fighting equipment. It merely sees that we have the same fire-fighting equipment that we had when Grenada was one-half as large as it is today.

They Must Believe In Fairies

The folks who say that the war will end with victory for the Allied Nations in 1942 must still believe in the fairies and in Santa Claus.

Should the war end in 1942, it is our considered opinion that it would end with defeat of our cause—our cause being the defeat of the Axis. To win anything, including a world game, you must win. A man cannot win a game if he is losing nearly every game. A man cannot win in a dice game as long as he is losing nearly every game. A man cannot win in a dice game as long as he is losing nearly every game.

The trend of this war must change from reverse for the Allies to a successful success for the Allies. We cannot win it with the enemy in the rear and closer to our shores. We cannot win it with China isolated and Russia's back to the wall. We cannot win it with airplanes alone.

The enemy that people realize that we are losing this war, and the enemy that realize that isolated successes will not win the war, the better off we will be. Encouraging our successes and minimizing our reverses will not win the war. Blood and sweat of our men, women and children on the home front will win the war. Little selfish optimism or fatalistic pessimism will not win it.

Whose Fault Is It?

The war is going badly for our side. Only an incurable optimist would say otherwise. The tragedies in Hong Kong, the Philippines, Dutch East Indies, Russia, the North Atlantic and now Tobruk should be too fresh in our minds to allow wishful thinking to govern our conclusions.

Is it your fault? Is it my fault? Is it the President's fault? Is it the fault of the War Department? Is it the fault of the Navy Department?

It is not your fault and my fault for we sent Congressmen and Senators to Washington to look after the national interest, as you and I are kept busy accumulating the heavy taxes necessary to maintain the government.

It is not the fault of either the War Department or the Navy Department because each of these departments has constantly warned the Congress of the ill prepared condition of the Nation. The President's repeatedly sought adequate protection for the Nation.

I believe that the fault should rest right where it belongs, that is on the shoulders of the Senators and Congressmen.

Put MacArthur At The Head

The Allied Nations need a supreme commander. Only one man on our side has shown anything on the ball. That man is General Douglas MacArthur.

All the other commanders seem to know nothing but to make "strategic retreats." If we keep on retreating, we will be forced off the face of the earth.

Bring MacArthur back and put him at the head of the Allied forces, or, at least, at the supreme head of all American forces.

Moral Waves

Moral waves, like the waves of the sea, surge forth, then subside.

We venture to say that, since we have been editing a newspaper in Grenada, there have been a dozen moral waves where the good people of Grenada meet, resolute against the saloonkeepers, enlist the aid of the sheriff, promise wholehearted cooperation—then forget all of their good intentions. The saloonkeepers too are accustomed to these waves of morality. They promptly close up and stay closed for a few weeks, then gradually reopen, first surreptitiously, then openly; and, lo and behold, within six weeks of the surge of the wave, the wave has subsided, and the saloons are wide open again. The people who were so vociferous in their denunciation of the evils are usually busy in their own affairs, and they unconsciously lapse into their old state of indifference; they forget their promises of cooperation with the officers.

We have seen so many moral waves surge forward, then subside, that we have about lost our faith in their effectiveness.

But this, after all, is history repeating itself. At the present time our erstwhile saloonkeepers are in the bootlegger stage. They are the ugly caterpillar bootleggers today but tomorrow they will emerge as the gorgeous butterfly saloonkeepers.

Watch and see if we are not correct in our prophecy.

National Dairy Month

June is National Dairy Month and Copiah County, with other counties of our Nation, should now mobilize all dairy resources for the defense of America.

The minimum goal for milk consumption in America should be at least one pint a day. Vice-President Wallace forecast in a recent address a peace in which provision should be made for at least a pint of milk for every child in the world. Or the 4526 farms in Copiah County, according to the last census, approximately 1200 did not have a family cow. Probably not over 50 percent of the farms in this county having family cows have an adequate year-round supply of milk. Health is the greatest asset this or any county can possess, a fact that can be realized too late. Milk and milk products, vegetables, poultry and eggs, pork and beef are essential protective foods we can and must produce if this county is to keep fit and alert. About 900 farms in Copiah County receive part of their cash income from milk, cream or butter sold. This income can and should be increased through improved dairy practices; and more farmers in the county can and should make dairying a cash farm enterprise. Adequate pastures, feed and quality animals are necessary to profitable farm dairying and to successfully meeting county nutritional needs.—Hazlehurst Courier.

Turn In All Rubber, Please

The President designated the period beginning Monday morning as the period in which the American people are urged to search their attics, their barns, their scrap piles and their outhouses for scrap rubber. Upon the volume of used rubber found and turned in depends the gasoline rationing program in states other than along the Atlantic seaboard.

Arrangements have been made whereby EVERY gasoline filling station is a depot for the reception of scrap rubber. The filling station keeper will pay you one cent per pound for scrap rubber, or you can give this rubber in the cause of national defense. We have been assured that no profit will accrue to anyone in this campaign. The filling station men are performing their part of the program without charge.

EVERY family in America has SOME scrap rubber. Old hot water bottles, discarded tires and tubes, garden hose, rubber soled shoes, rubber door mats, and even rubber nipples are acceptable.

Every pound of rubber will be converted into something useful to us, and harmful to the enemy, in this all out war. Rubber, we have been assured, is the No. 1 article in our national deficiency list.

Scrap rubber will help slap the Jap.

"Where Freeman Shall Stand . . ."

THERE shall you stand, also; for you are an American. You were a part of Lexington and Concord . . . of Gettysburg . . . and San Juan Hill. You were with the men at Pearl Harbor . . . asking for more Japs at Wake Island . . . fighting with General MacArthur in Bataan. YOU will help win the victories today.

THE ANSWER to Pearl Harbor is in your breast . . . in the way you feel when you hear "The Star Spangled Banner" . . . in the courage and determination that you bring to your wartime job whatever it may be . . . the way you believe in Liberty hard enough to die for it . . .

NOT EVERYONE can send an enemy bomber crashing in flames . . . or fire a gun from the deck of a battleship; but War Stamps and Bonds give all of us an opportunity to help win the war—an American way to find the billions needed for Victory. Every Stamp and Bond you buy will help to keep the light of Freedom bright, and the skies over America clear of Axis raiders. Enlist YOUR current savings for Victory. Make every pay day Bond day.

AMERICA NEEDS 60,000 PLANES THIS YEAR—WE CAN . . . WE WILL . . . WE MUST PRODUCE THEM!

Play Grounds And Community House Opening

On Wednesday, June 24, the formal opening of two supervised play grounds and the Community Center at the Community House, took place. Miss Mary Elizabeth McNeill, WPA recreational supervisor for Grenada county, will be able assisted by several ladies, who will supervise the activities on the days of the week. On the opening day, candy was served by the sponsors, the Woman's Club.

Two play grounds are supervised and are located on Line Street and at the Community House building. The playgrounds are children will have as their supervisor, Miss Willie Smith. The hours are 9 to 11 a. m. and 3 to 6 p. m. The Community school play ground will be supervised by Mrs. Ruth Fisher. The hours are 9 to 11 a. m. and 2 to 4 p. m. Parents will please note that at each play ground a flag will be in evidence. When the flag is up, the play ground is supervised. When down the reverse.

Mrs. Ella Rayburn is alternate supervisor. Miss McNeill will be assisted at the Community House by Mrs. Mildred Robinson. The Community House will remain closed in the morning, for the present, and the open hours are 2:30 p. m. to 4:30 p. m.

The Woman's Club sponsors these play grounds and through Recreation at the Community House. The purpose is to enlarge the recreational program and extend it to the smaller camps near Grenada, until these centers are organized, children from the camps are welcome to share the pleasure of the city's centers. Remember all children and young adults are welcome.

The Woman's Club is to be congratulated on this splendid program and the city council of Grenada, thanked for their cooperation in the matter. The youngsters now may enjoy supervised play.

Mrs. Tom Salmon, who had been the guest of her parents, Mr. and Mrs. Will Salmon during the time her little son was in the hospital for a tonsillotomy, has returned to her home in Houston.

Seen, Heard and Told By The Editor

Everybody has been speculating on what that tin building being erected next to Piggly Wiggly was to be used for. One person said it was to be used as a back barn; another that Ben Brown was going to bury his money there and protect it with the roof; another that it would be a new fire station, so badly needed in Grenada; another that it was going to be a dog house. But now the mystery is over. It is going to be a shooting gallery, and not a crap shooting gallery at that.

"The Stag" Green's new amusement parlor opened Saturday and appeared to be favored with good patronage. It is clean, well lighted and exceptionally well ventilated. Thus Grenada Grows.

A Mr. Smith just dropped in inquiring where his son lived. I helped him locate the son. There is nothing unusual about a Mr. Smith, but in this case Mr. Smith came from Habersham County, Georgia, near Tallulah falls where I worked thirty years ago. I have never seen but three folks from Habersham county: Mr. Smith and his companion, and Brother J. M. Pierce, of Holcomb.

Lamar Chamberlain must have collected a freight bill or had a moon hand for he paid his dues Saturday.

Two mr. top. sum fellers luffed and sed that letter 2 mr. ross collins shore wuz pizen.

We have added Oscar Bledsoe, a big rich delta planter from Greenwood, to our mailing list, or rather to our probation list. If anyone in Greenwood, who already takes the GCW, objects, write us right away so we will refuse to admit him.

Mr. Tom Head Man and I have at long last got together again, this time on Jim Eastland. I guess Mr. Tom would be glad to see me if I ever went to Jackson.

I do not have to go to the picture show to see My Favorite Blonde for I can just step over to the Belmont.

John Turnipseed has closed out his feed business here in Grenada and has gone to Memphis where he is working in the plant of the Fisher Body Company. Denied opportunity to serve by the army eye doctor, he elected to help where he could, and is engaged in war work in the plant. He states that when the war is over he expects to return to Grenada to make his permanent home.

With our side losing the war every day, we deem it very foolish for any one to "take" the 4th of July.

We understand that a government man was due here this week to check on rents. Watch out, Old Sam! He will get you rent profiteers.

This comes damn nigh being an advertisement.

Aint they sweet.

Brother Beckum paid for the paper about six weeks ago, and raised hell because he did not get but one copy. We do not blame him.

Greenfield and Horn will likely stay out of evil, sin and libertinism this weekend.

A gentle reader, there is not enough rent in that to save.

While Lee Sykes is happy again as he has his classification straightened out.

A feller from Jackson told me that Mississippi would have the choice of four men to fill the chair to be vacated by Paul Johnson: Tom Bailey, Hugh White, Mike Conner and Dennis Murphy. He said he was going fishing on election day.

Aint they sweet.

Miss Tina Johnson has moved from the Canton Hospital to the hospital in Cleveland. She is one of the "aint they sweets."

Some feller was saying that there was more whiskey consumed here than ever. There are more people here.

I helped Slap the Jap \$18.75 worth Saturday. I hope to give them an eighteen dollar and six bits slap every month.

Wonder if they have any printing done at the camp.

I note Milton Williams' tracks on the cash book.

Tommie Rose has two or three new clerks.

Our Mr. Greenfield and Mr. Horn were kept out of devilment last weekend. Do it again. Better see about your gin tickets and cotton sales books.

The clang you heard on the cash register was the recording of the two bucks paid in by Mrs. Cecil Moss, one of our valued subscribers.

Hot as it is, I expect I am going to have to get out some subscription notices. Folks, with few exceptions, do not pay any attention to the "5-42's," "6-42's," etc. that we print on their copies.

I do not guess Fred Sullens would be very glad to see me as he says my man Eastland would rattle around in Pat Harrison's seat like a mustard seed in a bull fiddle.

We are mighty sorry to hear that "Miss" Addie Weyneth is quite ill again.

Uncle Sam is going to come to Grenada about August 1, and look into this rent business. Those who are charging high rents may as well be prepared to reduce rents to reasonable levels.

Andrew reported that Subscriber Claud Shaw was in the grass.

Our daughters, who work as typists at the Main office, are enthusiastic about their new jobs.

I am going out to see Brother Kratt and see if they use printed matter or five cent tablets.

Pet. Edgar Brunson is now down in the West Indies, exact location being a military secret. Do not mess around too much with those senoritas, Edgar.

Aint they sweet.

LESSON FROM HEAVEN

By Herbert B. Allen

Certain days stand out vividly in memory through their association with brilliant events. And June 2nd, spent in my native city of Hamilton, Ontario, was indeed a memorable day for me.

The Canadian papers, mazed forth with the exciting record of the glorious exploits of the RAF over Cologne, and the home folks were officially informed that more than one thousand Canadian pilots had participated in that historical bombardment of Germany.

In a Hamilton restaurant, over fish and chips (French fried potatoes), I had the pleasure of celebrating the greatest bombardment in military history with several young RAF pilots. Everyone was in high spirits.

In my first article in the South, written from the Veterans' Hospital in Memphis, I confidently predicted that there would be no invasion of Old England, but that there would be an invasion of Germany—and that Germany would be destroyed by aerial action, and not by ground forces.

My confidence in the indomitable valor of the present generation in the British Empire, and in the ability of the modern RAF to duplicate, and even to exceed, the exploits of the old Royal Flying Corps of the last war was impressively vindicated in the air over Cologne in most dramatic fashion.

When I wrote those articles in the autumn of 1940 vastly superior German air power was attacking the numerically inferior RAF with the confident boast that it would annihilate the British. But the Luftwaffe nose-dived to the most stunning defeat ever experienced by a major air power.

As the battle over England raged I predicted in these columns that the very heart would be beaten out of this generation of German pilots. It was! The final score in the daylight fighting over Britain was: German planes lost—200; British planes lost—80.

The terrible beating that the RAF administered to the Luftwaffe completely disillusioned the German pilots. Military pilots know what goes on in the air and no German ever became so Nazified that he could not comprehend the meaning of so many vacant chairs at the officers' mess. Moreover they had witnessed with their own eyes how these humiliating defeats had been inflicted by miserably inferior members of British pilots possessing magnificently superior courage and skill.

One of the RAF pilots recalled the night that Coventry was bombed. In the suburbs of that small city, an important armament plant was hit squarely by German bombs. Within thirty-six hours that plant had its production line moving; and in less than a week production was at normal output.

That was the manner in which that English industry rebounded from an attack by the vaunted Luftwaffe. Well, after that visit from the RAF, I wonder how many Cologne assembly lines were in operation within thirty-six hours; and how many Cologne industries resumed normal production within a week? It would probably be safe to assert that war became suddenly exceedingly unpopular in Cologne!

Another RAF pilot remembered an attack on an airdrome near London by fourteen German bombers. They made direct hits on two hangars, blasting them wide open. Great bomb craters were blown on the landing field, but hectic efforts by the ground crew, aided by a road roller, filled and leveled those craters before morning. But what happened to the German bombers?

Local anti-aircraft accounted for two, and the Fighter Command brought down the other twelve before they got as far as the English Channel. This total eclipse of an entire German bombing flight was in very black contrast to the losses suffered by the British over Cologne. In spite of the large number of planes in the British air armada, their losses were but three percent of the planes engaged—a remarkable record!

The Germans are one of the most intelligent nations in the world. They joke about the blunders of their government, just as Southern cotton planters joke about the administration of the cotton control program by the AAA in Washington. No matter what Nazi propaganda prints in the German press, or what nonsense they belloy out over the German radio, the German people have a fair notion of what goes on in the world.

There will be no joking over the bombing of Cologne. They can see the handwriting on the wall, and it is appearing in exactly the form in which intelligent Germans have been expecting it. For the war was lost for them in their failure to win the opening months of the struggle—exactly as in 1914.

The German nation is now being taken into the woodshed for punishment; and loud howls and curses are due to emanate from that woodshed for many long months to come. For the vast majority of the German people, Protestant and Catholic, rich and poor,

have been solidly behind Hitler. They have willingly sacrificed everything in the firm expectation of ease and luxury—the spoils of a conquered and plundered world.

Back in 1918, tender-hearted Woodrow Wilson, deaf to the fervent entreaties of practical minded General Pershing, saved the Germans from the just consequences of fifty years of military preparations designed to subjugate the civilized world; from a unanimous military defeat!

The crafty Germans expect to try their crocodile tears on the world again, in the near future. The wall will arise in Germany that all this has been the work of Hitler, and that the German people are the reluctant victims of political despotism and coercion, the innocent slaves of circumstances.

But the world has learned a great deal about German character, and German maneuvers, in the past twenty years. The entire German nation now stands before the bar of world justice, indicted for criminal brutality, and as the avowed enemy of liberal civilization.

Those who know the Germans at first hand fully understand that it is impossible to change the character of the German people. But it is not impossible to change the German mind by force—the one form of argument that the Germans understand. When the German mind is forced to acknowledge that the world will no longer tolerate Germany's criminal practices, and her insufferable determination to enslave the entire non-German world, then a great change will take place in German policy.

To force the Germans to change their minds was the function of the flashing, crashing, smashing, flaming, devastating, explosive, murderous bombardment of the ancient, picturesque, cultured city of Cologne. And each successive bombardment of Germany will drive home exactly the same great object lesson as city after city is left in smoldering ruins.

That is the calculated objective of the methodically prepared, scientifically executed plan to obliterate both the German spirit of conquest, and the great industrial system which provided Germany with the tools of mechanized destruction.

Those who have known friendly, charming, quaintly modern Cologne cannot but regret the terrible necessity which brought about its ignominious end. Surely even a German, mournfully surveying its smoking ruins, could not refrain from expressing the candid judgment: "Well, we asked for this."

If our civilization is to survive the age of POWER and INVENTION, then the world must demonstrate to Germany that any nation that abuses POWER and INVENTION invites its own destruction, in order that the world of law and order may survive the abuse of mechanical genius. "Those that live by the sword shall perish by the sword." So it is written; and so it shall be. Proud Germany shall receive her lessons from Heaven!

YOUR ORDER, OUR ORDER EVERYBODY'S ORDER

Keep your temper, gentle sir. Writes the manufacturer. Though your goods are overdue. For a month, or maybe two. We can't help it, please don't swear. Labor's scarce and metal's rare; Mills don't care how much we cater. All they say is "No Paper." Can't get steel and can't get dies—These are facts, we tell no lies.

Mike's drafted, so is Bill; All our work is now uphill; So your order, we're afraid. May be just a bit delayed. Still you'll get it, don't be vexed. Maybe this month, maybe next; Keep on hoping, don't say die. We shall fill it bye and bye.

The attractive red, white and blue window sticker, pictured above, is the new yardstick of patriotism in the War Bond drive throughout the nation. With the slogan, "Everybody every day, ten percent," encouraging the country, patriotic Americans on the home front are rallying to their Government's appeal for funds with which to help finance the war. The home which displays the "ten percent" sticker is doing its share toward Victory for America and the United Nations. The stickers are being distributed through local War Savings Chairmen.

Sausage From Greeks

Most people believe that the origin of the most portable meat parcel, the sausage, is lost in dim antiquity, but we can trace the inventor.

Of course, the Romans were in the business. The sausages of Lucania were very celebrated amongst the Romans. But the Greeks were there first. Sausages are mentioned in the world's oldest cookery book by a Third-century Greek writer, Athenaeus.

The work is entitled "Deipnosophists" (Banquet of the Learned). This ancient Greek Epicurean scholar realized that food for the body is as important as food for the mind. He was very fond of tit-bits, whether of scandal or cookery.

If you know a Navy man, don't ever call him a "gob"—sailors consider the name an insult. You can get on the right side of him though if you offer him a Camel—or better yet, send him a carton. Camels are the favorite cigarette with men in the Navy (Army, Marines, Coast Guard, too, for that matter) based on actual sales records from the service men's stores. Local dealers are featuring cartons of Camels to send to any member of our armed forces anywhere. Send him that Camel carton today.—Adv.

Cotton Plays a Stellar Role
Throughout the Fashion DramaBy **CHERIE NICHOLAS**

WHAT'S the smartest fabric for summer? Cotton! Gingham, calicoes, denims and other equally humble cottons have soared to such heights of importance you can count on finding them 'way ahead of more pretentious fabrics in popularity.

Then, too, there is a feeling spreading among women that cottons are American and that it's a fine patriotic gesture to wear simple, pretty clothes that radiate cotton freshness. And so it is! In the gallant "spirit of '42" we are returning to the sweet simplicity of fashions made of cottons ranging from the most lowly, practical workaday types to appealing, lovely sheers that are correct even for formal wear.

To add to the zest of things, the current trend to cottons brings into use materials that were once never thought of in connection with costume design, such as, for instance, upholstery prints, pillow ticking, awning stripes, quilted calicoes, quilt patchwork prints. The truth is, anything on the "what-have-you" list of cotton materials qualifies as high fashion these days if given artful and ingenious styling.

Just now a novel cotton that comes under the glare of fashion's spotlight is quilt patchwork print. It is used for the cunning dress to the right in the above picture. You will see these amusing prints that make gay color contrast their theme in all the best store windows and on all the best beaches and in all the finest gardens. That calls to mind the latest entertaining "stunt," backyard barbecue parties for stay-at-homes with whom long motoring trips are taboo due to gas restrictions. Alert to the new movement,

designers are creating cunning fashions of gay cottons. In the country casual pictured the patchwork design of the printed calico adds interest to the simple lines of the dress. The square neck and set-in waistband are smart style details. A triangle of light color at the neck achieves a yoke effect, with another in the skirt to look like an apron.

Darling daughters, as the illustration to the left in the above pictures shows, are going to the shore and out to swim as well, in striped glazed chintz. This cotton drapery fabric has made the hit of the season, appearing everywhere, in evening gowns, daytime dresses and play clothes. The pinafore shown covers striped "bra" and plain green chintz shorts.

The clam-digger overall and wrap-around skirt of the play suit centered in the group is equally at home working in the garden or on the beach. The material for this outfit is long-wearing and easy-to-wash denim in the popular faded blue. Its demure blouse, with pleated frills on the collar and cuffs, utilizes yellow calico in a quaint print. Without the blouse the overall is a grand costume in which to absorb the vitamin-giving rays of the sun.

Watch summer suits made of cottons! They're the rage this season. The long-jacket types lead, and they are of gingham, seersucker, gabardine, chambray, denim and shantung (black shantung is very smart). They are the smartest ever for about-town wear. Dressier suits are made of gay cotton prints.

War Bride

This charmingly feminine coiffure, especially designed for the war bride, is presented by the Chicago and Illinois Hairdressers' association. The bride's hair is arranged in a rolled-back pompadour indented with a deep shadow wave, which provides a perfect complement to the coronet bridal veil. Clusters of loose finger curls are arranged at the neckline.

Clever Designers Use

Glass, Seeds and Nuts
Now that so many materials have been restricted, it is interesting to note what clever media are taking their place.

Just to mention a few, there's silver, vegetable ivory, glass, nuts, seeds, shells, wood, string, hemp, rayon and reprocessed wool. Endless other items to follow are being transformed into smart jewelry and wearing apparel with consummate art under the magic touch of skillful designers.

Suit Fabrics Can
Be Sheer or Sturdy

The suit mode has carried over from spring to summer. The difference in suits now and then is chiefly in the materials, which feature ginghams, washable gabardines in pastels, navy or black.

A leading favorite is the suit made of black shantung. You can wear the new shantungs all summer long and look well dressed.

An interesting item about summer suits is that so many have short sleeves. Most of the longer ones are of the open "bell" type, and they do not reach to the wrist.

Thin black mesh suits are a foremost fashion. These illustrate the renewed enthusiasm for the dressier uses of fragile black. This trend is carried on in lace-trimmed afternoon dresses with their exquisite detail.

Newest of the Browns
Is the Smart 'Ginger'

Making conversation everywhere in fashion circles are the new summer browns. Merchants are showing everything from hats and shoes to dresses and wraps in the new browns.

These are called by various names, including toast, cinnamon, cocoa, luggage, and the newest of all is ginger brown. A shantung suit in ginger brown is a "last word" in fashion. Also, many of the best looking prints are in brown and white.

Quilted Hats

Ask your milliner to show you the newest in quilted hats. No doubt you will be shown hats of yellow chambray quilted in the latest smart manner, for yellow is a much emphasized color in millinery fashions this season. Flowered chintz quilted is also very smart.

Fortunately Hole in Barrel
Was Discovered in Time

The particular unit in question had taken on a large number of new recruits and some of them were a little raw. During the first rifle inspection, the officer approached one of the men, had a look at his rifle, and then called to the N.C.O. in charge.

"Look at this man's rifle!" he announced.

The sergeant looked down the barrel, swung the rifle around to the recruit, and barked: "Take a look at that rifle, you!"

The recruit peered carefully down the barrel, then muttered in a surprised tone:

"Well, what do you know. Got a hole clean through it!"

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

ALCOHOL FACTS VERSUS DRINKING PROPAGANDA

LESSON TEXT—Proverbs 21:17, 23:32; Isaiah 5:22-23; Hosea 4:11; Joel 3:2, 3; Ephesians 5:18.
GOLDEN TEXT—If sinners entice thee, consent thou not.—Proverbs 1:10.

The facts are on the side of the one who opposes the liquor traffic, and they are so plentiful and so devastating that the industry does not care to face them. Their "best bet" is to use propaganda so skillfully prepared as to disarm the reader. If the propaganda is truthful, it is only because it has to be, and only in that measure.

Our lesson suggests several points in the liquor propaganda, each of which we can prove to be untrue.

I. They Say, "Enjoy Life, That's What We Are Here For" (Prov. 21:17).

Consider the ads of the liquor trade. They carry the beautiful lady, the brilliant young man, the socially correct surroundings, riches, ease, etc. They suggest that even the grandmother in the home approves the use of intoxicants to bring comfort and pleasure to the breadwinner in the home.

What is the truth? Man is not here for pleasure; he is here to serve God. History demonstrates that the nation that lives for pleasure, especially in connection with the use of intoxicants, is doomed to extinction.

II. They Say, "Liquor Is Not Dangerous" (Prov. 23:32).

It is presented as a pleasant and harmless stimulant, when in fact it is known to science, to police and social welfare workers as a narcotic which not only upsets digestion and deranges physical processes but, most vicious of all, "affects personality by its action upon the certain specific brain area. It disturbs, confuses, slows down, and removes the restraints, the checks and balances which make a well-rounded personality. It is the highest functional level of the brain, the personality level, which is first put into eclipse by the action of alcohol" (Carson Taylor).

III. They Say, "Those Who Oppose Liquor Are Fanatics" (Isa. 5:20, 21, 23).

The prophet answers that claim by pointing out that those who favor the use of alcohol are the ones who call evil good and good evil, etc. A little study of liquor propaganda as it appears in the advertising of the industry soon demonstrates that fact. Of late they have been trying to convince us that beer is just a soft drink for the home. Any policeman who has seen a man drunk on beer, and any social or religious worker who has seen the destruction it has wrought in the home and in society, knows that is not true.

IV. They Say, "Strong Men and Leaders Are Drinkers" (Isa. 5:22).

Sadly enough, many of our leading men do indulge in liquor, but if the truth were out, it would be known that they are less capable as leaders and weaker men for their use of it. And who has not seen a leader become a poor dervish by the alcohol route, or a strong man become a jittery mental, moral, and physical wreck in the same way.

The work of a nation in both war and peace is done by sober, steady, trustworthy men who have a "clear head," not because they use a certain whisky but because they do not use it.

V. They Say, "The Pleasure Is Worth Price" (Hosea 4:11; Joel 3:2, 3).

The wicked ones who captured Israel felt they made a good trade when they gave a boy for a harlot, or exchanged a girl for wine. The modern system of making merchandise of boys and girls is not as openly crass as that, but when you figure the cost of alcohol to our land, be sure to add in the girls who have gone into iniquity by the way of tavern hostesses and the boys who have lost everything sacred because of "booze."

Remember too that the beer makers are deliberately using this war to cultivate a taste for beer in millions of young men—their future customers—and we are letting them get away with it, right in the army camps.

VI. They Say, "Drinking and Religion Go Well Together" (Eph. 5:18).

The contrast of Paul gives that claim the direct brand of falsehood. Being drunk with wine is the exact opposite of spirituality.

Liquor interests know that if church members can be led to believe that wine at dinner, beer as a soft drink—and an occasional social cocktail—is not incompatible with religious life, they will have effectually shut the mouth of the opposition they fear the most—the church.

Let pastors and church boards deal plainly and drastically with drinking church members, and the church will profit spiritually, and again become an effective means of stemming the tide of social iniquity which is engulfing our nation.

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS

MOST quilts today are planned as bedspreads and have a color scheme to harmonize with other decorations. If a variety of figured scraps is used one color is generally repeated in each block to give the design unity. The beauty of any quilt is enhanced if it is set off with a val-

PREPAREDNESS by the AMERICAN RED CROSS

NEWEST of all the American Red Cross activities is the Wool Conservation program. Under it, volunteers from the more than 3,700 Red Cross chapters throughout the nation collect scraps of new, unused wool and place them in reprocessing channels.

The Wool Conservation program was developed jointly by the War Production board and the Red Cross when it became apparent that the nation faced a serious wool shortage. There were only two ways in which this shortage could be alleviated within the next year. The first was by cutting down wool consumption in every possible way by restyling and re-designing garments to save wool. The second was to have every scrap of new, unused wool reprocessed as rapidly as possible. The Red Cross was selected to do this job.

Under the agreement between the Red Cross and the War Production board, the 3,700 Red Cross chapters arrange for the collection of trousers cuff clippings, wool samples and other wool clips from tailors, men's clothing stores, department stores, clothing manufacturers and cleaners. These are then placed in reprocessing channels by selling them to wool reclaiming firms.

When reprocessed into wool cloth, the clippings from 21 pairs of men's trousers will be enough to make a complete soldier's uniform or another civilian suit.

Proceeds from the sale of the wool clips collected under the Wool Conservation program are retained by the local Red Cross chapters to carry on their work of War Relief and Civilian Defense Preparedness training.

Swim or Sink

Poverty is uncomfortable, as I can testify; but nine times out of ten the best thing that can happen to a young man is to be tossed overboard and compelled to sink or swim for himself.—James A. Garfield.

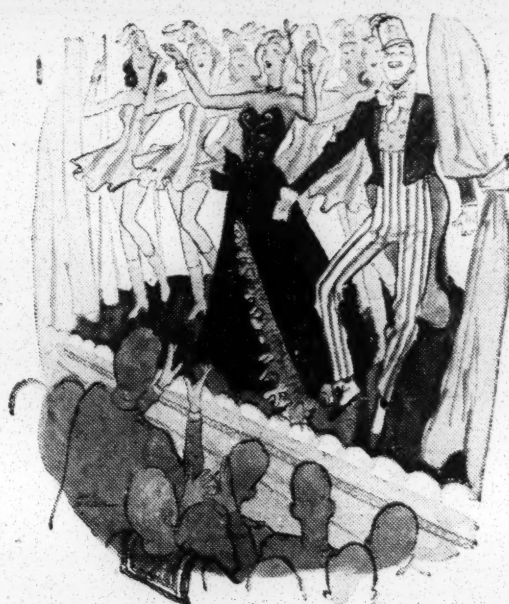

"HIGH-WIRE" artist

HE'S A "SELF-STARTER"

CARL WILLIAMS is a telephone company "trouble shooter." That's a job that's tough and plenty dangerous. Mr. Williams says: "I've got to be alert and on my toes every minute I'm working. I've found that eating the 'Self-Starters' is a great help in starting the day right... and it tastes like a million!"

What's a musical comedy got to do with winning a war?

PLENTY! We're building an army of men—not machines. And men have minds. And minds need freshening... change... relaxation.

So one of the biggest undertakings of the USO is its sponsoring of free entertainment, through the cooperation of the movie and theatrical industries, at army camps, naval bases—wherever the fighting men of the USA go to train or dig in.

USO Camp Shows, Inc. is actually the biggest single theatrical enterprise the world has ever seen. It books 264 shows for the boys every week, which play to an average nightly attendance of 50,000.

It contacts movie stars, theatrical headliners, big name bands and their leaders. It routes all these... plans their itinerary... arranges the most convenient times when soldiers and sailors can take time out to sit and be entertained.

For it realizes that the one great advantage of the American fighting man is his ability to think for himself, to make the most of any situation, to fight as a liberty-loving individual.

And this is one of his great differences from our enemy.

To help carry on the all-important work of maintaining the morale of our fighting forces, the USO needs your help... it needs your contribution.

Your dollar has many demands on it this year. Many of these demands must be met—others deserve to be met. And among these latter, the plea of the USO for whatever sum you can contribute merits your earnest consideration.

For we have a war to win, and the USO is directly concerned with the men who must—and will—win it.

Dig deep—for the men who are digging in!

Send your contribution to your local chairman or to USO, Empire State Building, New York.

GIVE NOW TO THE USO

AROUND THE HOUSE

When the corrugations on the wheels of your lawn mower wear out, take a rattail file and renew them. This will give your mower better traction.

Lemon juice sprinkled over alligator pear salad just before it is served improves the flavor.

The stock left from spinach should be saved and used in vegetable soup. It contains valuable food properties.

Sign of Wisdom
The most manifest sign of wisdom is a continual cheerfulness.

Red raspberry leaves are said by some to be an excellent substitute for tea, now that tea is scarce. They are to be picked and then dried before using.

When frying in deep fat use a heavy aluminum kettle. It holds the heat and does not tip over easily. Use a wire basket to transfer food from and to hot fat.

To prevent marmalade from graining, do not boil it too fast and take it off the stove as soon as a little of it jellies on a cold plate. Be careful that you have pure sugar for this and all preserves.

Fine grained sandpaper will remove surface spots from white felt hats and will raise the nap on felt hats that have been caught in the rain. For white straw or fabric hats, try art gum.

Spread a thin layer of orange marmalade or apricot jam on baked pancakes. Roll quickly and sprinkle with confectioner's sugar. Serve with pineapple syrup for breakfast or luncheon.

Wartime Problem Solved

Necessity has forced the American people to do many new things. While in the past many bird lovers have raised canaries at home for the pleasure and satisfaction they derived, now the breeding of canaries at home has become a new, worthwhile hobby—a money-making hobby that is spreading all over this country.

With the major supplies of canaries from abroad abruptly stopped... with a strict wartime ban placed on the importation of hundreds of thousands of canaries formerly shipped yearly from Central Europe and Asia, the ingenuity and foresight of the American people have met the situation with smiles of satisfaction—as they turned this canary shortage into a wartime opportunity.

But a small out-lay was required to start this worthwhile hobby—turning a most pleasurable undertaking into a profitable, money-making business at home.

Play Is Preparation

Play is a pleasurable mental and physical competitive exercise where the issues involved are trivial and transient. It is a fit preparation for more important tasks. And it is the law of life that you only do those important tasks well at which you have played in childhood.—Stanley Hall.
